

Power Scholars Academy

PSA was created by YUSA and BellXcel to provide an evidence-based, academic boost for children during the summer break, strengthening math and ELA skills and fostering a growth mindset.

The PSA model is strengthened by *Arly*, the youth program management software by BellXcel, with valuable digital tools and resources including professional development for staff, an app to strengthen family engagement and more, all in one seamless solution.

During the summer of 2022, collective outcome highlights from YMCA associations offering academic programs in partnership with BellXcel included:

20k

grade pk-8 scholars enrolled

54

YMCA partner associations

+1.5+

months gained in 5 week reading & math programs

93%

of families were highly satisfied with the program

91%

families felt valued as a partner in their child's experience

100%

of families would recommend the program

94%

of staff said working with the program was rewarding

94%

of staff said youth were highly engaged in the program

New and improved Arly can maximize all of your program offerings!
